Experience

WORKS

Senior Web Developer

Procol · Full-time · On-Site · April 2024 - Present

Gurugram, India

- Developed and maintained Procol's website and landing pages, keeping them fast and working smoothly on all devices.
- Built custom WordPress plugins using React.js and PHP — Vendor Finder, PO Generator, Invoice Generator, Receipt Generator, Bill Generator, and Scope of Work Generator — to help the team save time on manual tasks.
- Improved website speed and performance through caching and optimization, which helped with SEO and getting more leads.
- Worked with the marketing team to build landing pages quickly for campaigns.
- Added security improvements and wrote clean, organized code to make future updates easier.

Web Developer

FARE Labs Pvt. Ltd. · Full-time · On-Site · Mar 2023 - April 2024

Gurugram, India

- Built and maintained responsive, cross-browser-compatible websites with a mobile-first approach, improving user engagement across all major device types.
- Delivered full-stack front-end and back-end solutions that enhanced website performance and reduced page load times.
- Led site-wide SEO and security audits, implementing improvements that boosted organic search rankings and protected against common web vulnerabilities.
- Served as Team Lead, coordinating cross-functional efforts with design, marketing, and content teams to align web deliverables with campaign timelines.

Wordpress Web Developer

Voxturr · Full-time · On-Site · May 2022 - March 2023

Gurugram, India

- Developed and customized WordPress websites and landing pages for diverse clients, consistently meeting brief specifications and deadlines.
- Resolved technical errors and implemented front-end enhancements, improving UX and reducing client-reported issues by streamlining QA processes.
- Specialized in responsive design and SEO-focused development, contributing to improved client search visibility.
